

Dev.Pro Candidate | Federico G. - Senior Full-stack Engineer | for Orderly Meds

Summary

Federico is a highly proactive and reliable Senior Full-Stack Engineer with over a decade of experience building and maintaining production-ready web applications. He has a deep expertise in **Ruby on Rails**, having utilized it as his primary backend framework throughout his career to develop robust RESTful APIs, complex CRUD monoliths, and real-time communication systems. On the front end, he is proficient in **React.js**, **TypeScript**, and **Next.js**, with specific experience implementing responsive designs using **Tailwind CSS**.

Skills

- **Languages:** Ruby, JavaScript, TypeScript, SQL
 - **Frameworks & Technologies:** Ruby on Rails, React.js, Next.js, Hotwire (Demo experience), Node.js, RESTful APIs, Monorepos
 - **Front-end:** HTML, CSS, Tailwind CSS, Sass, 3D Web Experiences, UI/UX Design
 - **Databases:** PostgreSQL, MongoDB, Redis
 - **DevOps & Cloud:** AWS (Amazon Web Services), Heroku, Docker (via Monorepo workflows), CI/CD
 - **Architecture & Methodologies:** Agile, Scrum, OOP (Inheritance, Polymorphism, Abstraction), CRUD-heavy Architecture, Event-driven/Real-time systems
 - **DevOps:** Docker, Kubernetes, CI/CD (Azure DevOps), Secret Management, Cloud Platforms (Azure, AWS)
-

Experience

OHZI Interactive | Remote Full Stack Developer | January 2019 – Present

- Designed and maintained production-ready **Ruby on Rails APIs** and built an in-house JS framework for high-performance 3D web experiences.
- Implemented real-time communication between backend and frontend systems for game-like web interactions.
- Developed front-end components and full-page transitions using **React.js**, **Next.js**, **TypeScript**, and **Tailwind CSS**.
- Led daily syncs with international clients, including high-profile organizations like the US Open and Wimbledon.

Weblinc Commerce | Remote Full Stack Developer | March 2016 – January 2019

- Delivered over 10 custom e-commerce solutions utilizing open-source gems and tailor-made **Ruby on Rails** backends.
- Engineered custom Shopify integrations and built backend systems to synchronize data with desktop applications.
- Implemented diverse third-party integrations, including payment gateways and complex wishlist functionalities.
- Collaborated within a fully remote **Scrum** team across multiple time zones.

Fluxit | La Plata, Argentina Full Stack Developer | March 2015 – March 2016

- Designed and built CRUD-heavy **Rails monolith** applications from scratch for internal client workflows.
- Applied **Scrum** practices to ensure predictable delivery cycles and participated in the implementation of robust software solutions.
- Managed data persistence using **PostgreSQL** and handled deployments via **Heroku**.

Teardrop | La Plata, Argentina Full Stack Developer | January 2014 – March 2015

- Built backend systems to support gameplay features and data management using **Ruby on Rails**.
- Applied core **Object-Oriented Programming (OOP)** principles such as inheritance and polymorphism to develop gameplay mechanics.

- Contributed to an **Agile** development environment focused on iterative feature delivery.
-

Languages

- **English:** C1 (Advanced)
 - **Spanish:** Native Proficiency
-

Education

- **Bachelor's Degree in Computer Science** - Universidad Nacional de La Plata (Thesis near completion), 2019
- **Degree in Program Analysis** - Universidad Nacional de La Plata, 2017
